OBSERVED VIOLATIONS

None

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

On October 17, 2011, John Patrone met with Mike Hinshaw to conduct a comprehensive audit of Hinshaw's LCID Landfill on South NC Hwy 49 in Burlington, Alamance County.

1. Mr. Hinshaw owns Handgunners, Inc. (4325 S. NC Hwy 49, Burlington, NC 27215). Access to the land clearing and inert debris (LCID) landfill is via the parking lot serving Handgunners, Inc.
2. The LCID landfill footprint is estimated to be ~ 1.5 acres.
3. The landfill area is designated, at each corner, by orange edge of waste markers.
4. The landfill side slopes are graded accordingly.
5. The landfill was adequately covered with soil. Mr. Hinshaw was grading the landfill area and covering material at the rear side slope during the inspection.
6. Adjacent to the landfill area are piles of soil and used asphalt. The asphalt will be spread atop the landfill and used as roadbed material, etc.
7. The facility occasionally stockpiles a few logs for firewood.
8. Prior to the landfill area, the facility stockpiles concrete to be used as roadbed material, etc.
9. Prior to the active area of the landfill, drivers are required to stop at a check-in area.
10. The LCID landfill appeared well operated and maintained.
11. No indication of erosion or runoff was observed.
12. Access roads are of all-weather construction.
13. The site is secured by locked steel cable.
14. The facility has proper signage.

Please contact me if you have any questions or concerns regarding this inspection report.
